

PORTCORPUSCHRISTI

Project No. 14-060C

March 22, 2016

TO ALL POTENTIAL BIDDERS

Subject: Addendum No. 1 for Security Grant 14 Oil Dock 14 Security Improvements

Ladies/Gentlemen:

This addendum is considered part of the Contract Documents and is issued to change, amplify, add to, delete from, or otherwise explain the Contract Documents. Where provisions of this addendum differ from those of the original Contract Documents, this addendum will take precedence and govern.

Bidders are hereby notified that they must incorporate this addendum into their bids, and it will be construed that the contractor's bid reflects with full knowledge all items, changes, and modifications to the Contract Documents herein specified. Bidders will acknowledge receipt of this addendum in the space provided on the Bid form.

BID BREAKDOWN SHEET

The Bid Breakdown Sheet has been revised, and a copy is attached. ***Bidders must submit their bids on this Revised Bid Breakdown Sheet form.***

SPECIAL CONDITIONS

Add the following paragraph 1.26 to the Special Conditions as follows:

“1.26 STORM WATER POLLUTION PREVENTION PLAN. A Storm Water Pollution Prevention Plan (SWP3) is currently implemented for the Oil Dock 14 construction and a copy of the SWP3 is provided as Exhibit B. Contractor is required to comply with the SWP3, including installation and maintenance of appropriate best management practices as indicated in the contract drawings and conducting required inspections of construction project in accordance with the SWP3.

- A. The Contractor will complete, certify, and post the appropriate “Small Construction Site Notice”, in compliance with Part III.D.2 of the TPDES general permit TXR150000, at the project site in a visible location prior to commencing construction activities. The Contractor will also provide a copy of the construction site notice to the PCCA Environmental Compliance Manager. The construction site notice will be maintained on-site until completion of the construction activities.

- B. At least seven days prior to commencement of any construction activities, the Contractor will provide a copy of the completed "Small Construction Site Notice" to the city of Corpus Christi, attention to the Director of Storm Water Services, 2726 Holly Road, Corpus Christi, Texas 78415, as the operator of the MS4 receiving the discharge. Contractor will also provide to PCCA evidence of submittal of the "Small Construction Site Notice" to the City of Corpus Christi.
- C. The contract drawings for this project will be added to the existing SWP3 and the Contractor will be responsible for signing the attached Storm Water Pollution Prevention certification page and adhering to the contents of the SWP3. The Contractor will also be responsible for full implementation of the SWP3 within the project area and ensure that it is communicated to all employees and subcontractors and adhered to during construction activities. The SWP3 must be maintained at the project site at all times and made available upon request.
- D. The Contractor and PCCA may revise the SWP3 at any time as necessary during the construction project per Part III. Section E of the TPDES general permit TXR150000."

TECHNICAL SPECIFICATIONS

- 1. Section 13 34 19 Metal Building Systems.
 - A. Delete Paragraph 2.03-F.
 - B. Paragraph 2.04-B. Change paragraph to read to read as follows:

"B. Covered Inspection Area roof slope is 4:12."
 - C. Delete Paragraph 2.04-F.
