

NEPA Checklist

per IB 271 (dated 12.05.2007):

Basic Project Information	
Project Name:	
Grant:	
Grantee:	
Grant Award Number:	
Fiscal Year	
Purpose of the Project: (Explain whether this project involves any physical security enhancements, communications towers, construction, renovation, installations or modifications to buildings or structures)	
Estimated Cost:	
*Project Location (give full address and latitude/longitude coordinates, if available):	

* provide visual documentation of site (such as site/structure photographs, plans of the site with proposed work, aerial photos, flood and wetland maps, etc.)

<u>Project Description</u>	
*Dimensions/Acreage/Sq. Ft.:	
Brief write up on the project (include extent and depth of ground disturbance for new construction/structure modification; also any trenching for utility lines, fencing, light posts, tower footings and pads, etc.)	
Special Equipment being used:	
Will there be staging areas, access roads, easements, etc.?	
Is an existing structure being modified by this project (yes/no)?:	
If so, the year the affected building or structure was built:	

* For communication towers, provide the height and structural support information.

Features or Resources at or near the Site

Will there be any adverse impacts at or near the site?

If so, please explain in each relevant category below:

Bodies of Water (including streams, lakes, rivers, and wetlands):

Floodplains:

Historic and cultural resources (historic districts, buildings, dams, piers, etc.):

Migratory birds:

Critical Habitat or threatened/endangered species:

Vegetation (including plants and trees):

Geologic Features:

Tribal cultural/religious sites:

Special Areas (forests, wildlife refuges, etc.)

* Include any recent or relevant studies, reports or surveys that address environmental resources and/or historic properties in the project area (these reports may be prepared for other agencies).
